DIARY NOTES

ADD/A

3 April 1953

1. Walter Pforzheimer reported that Mr. Roy Cohn of the McCarthy Committee was leaving for Europe today and had suggested that he might like to talk to a CIA man there. Mr. Cohn was advised by Mr. Pforzheimer that if there were any reason for him to do this we would get in touch with him in Europe. Mr. Pforzheimer has written the Director a brief memorandum on this and points out that Mr. Cohn apparently knows that CIA finances "Radio Free Europe."

3. I told George Meloon that the DD/A's Office concurred in having Ed [redacted] make a thorough survey and analysis of our Personnel Procurement organization, functions, and procedures.

4. Met with Mr. Carey, [redacted] of the Office of Operations, and [redacted] of the Logistics Office to discuss [redacted]

25X1A

The Office of Operations, conservative as usual, had not planned to submit a project for funds to purchase their electronics equipment and construct this Station until bids on the construction had been received, thus enabling them to make an accurate presentation. It is my conviction that when the Agency committed itself to condemning this property (which we have already done and to which we have already taken title) it also made a commitment, in principle, to proceed with this project. I, therefore, urged Mr. Carey to have his Office prepare as soon as possible the best estimates they could as to the total amount of funds needed for this entire project and to present the project to the Project Review Committee with the understanding that they might need more money, in which case they would come back, but that in any event the DD/I and the DD/A would insure that costs were held to a minimum. In this way we could go ahead with the project without further reference to the Project Review Committee or the Director. This procedure would be highly advantageous to the DD/A since he could probably get all of the funds obligated out of this year's money which would otherwise be very difficult.

5. I returned the Exit Interview File on Military Personnel to George Meloon and requested that he discuss this matter with [redacted] in some detail, pointing out all of the conditions reported therein, particularly security violations, and to be guided by Ted's advice as to what further action we should take. In any case, I will expect a report from Mr. Meloon.

6. I instructed George Meloon that tables of organization for all of our offices should be reduced to the figures which were approved by the Bureau of the Budget on the first of April and that when this was done all ceilings should be exactly the same as the tables of organization. He will start to work on this.

7. I told George Meloon that unless he received specific instructions to the contrary from this Office he was not obliged to deviate from the approved procedure of slotting all clerical employees against the Interim Assignment Branch.

8. [REDACTED] stopped by to say that they had discussed very thoroughly with [REDACTED] of ORR the controls which they are to exercise in the conduct of operational liaison with [REDACTED]. Bob stated that he didn't think ORR was entirely happy about the situation but that they had reluctantly agreed to the security requirements.

9. [REDACTED] was over to brief me on the condition of [REDACTED] of the [REDACTED]. [REDACTED] is greatly improved, although in the course of one treatment he suffered a mild fracture of the vertebral column; treatments have, therefore, been suspended for the time being. However, he will be released from our doctor's care over this weekend.

We do not believe that there is any great risk of irrational disclosure of classified information and, therefore, will not be justified in picking up the check unless there are subsequent developments. It is our understanding that arrangements are being made to conduct therapeutic treatment under the supervision of [REDACTED]. I advised Mr. Carey of this arrangement and warned him that while it would probably be unwise to tell [REDACTED] at this time his illness was of such a nature that we would have to, at some later date, consider whether or not he could be restored to a full duty status. I have asked [REDACTED] to follow this case closely with the Office of Operations.
